Contact Audrey Negron with any questions: anegron@nycpm.edu / (212) 410 - 8068

INTRODUCTION

**The Silver Tsunami
Evaluation and Care of the Geriatric Patient
in Primary Care Podiatry**

It has been called the Silver Tsunami. Age greater than 65 is the most rapidly growing portion of the USA population. From skin pathology to musculoskeletal disorders, from the office to the operating room, podiatrists will be increasingly called upon to evaluate and treat the geriatric patient. Are you and your practice prepared for the rising tide of the Silver Tsunami?

OBJECTIVES

To provide the attendee current, meaningful information and practice oriented pearls related to:

- Pain management and poly pharmacy among the elderly
- Surgical remediation of forefoot and hind foot disorders in the elderly
- Management of fall risk
- Dermatologic pathologies unique to the elderly
- Neuropathic disorders
- Gait and functional orthopedic solutions for the elderly
