

NYCPM Alumni Dominate AACPM's DPM Mentors Network

The American Association of Colleges of Podiatric Medicine maintains the DPM Mentors Network, which matches DPMs with students who want to be mentored near their homes or schools. DPM Mentors show the students how they practice medicine, introduce them to their colleagues and answer questions about the profession. The AACPM report about Q2 participation by DPMs includes a large number of NYCPM alumni whom we acknowledge and thank here for their generosity with their time and professional wisdom. Of the 73 alumni who participated in Q2, 60 are NYCPM alumni!
